Seven years of international project management experience in the civil, construction and telecom sectors.

Education

Aug 2010-
May 2014 **THE GEORGE WASHINGTON UNIVERSITY** **WASHINGTON, D.C.**
B.Sc. Civil and Environmental Engineering.

Experience

Oct 2018-
Oct 2020 **ACCESS GLOBAL (PVT) LTD.** **LONDON, UK**
Project Specialist focused on process optimization and quality assurance.

- Engaged in corporate-level negotiations for multiple site-sharing mobile services, resulting in significantly reduced cost of operation and land acquisition.
- Superintended civil works for cell tower construction and fiber-optic network layout in Pakistan in accordance with international safety standards.
- Coordinated with relevant management at the GSM/mobile operator networks, ensuring handover of sites & maintenance services including power storage/battery backup solutions.

Aug 2017-
Sep 2018 **CAREER BREAK** **LONDON, UK**
Voluntary resignation to become a primary caregiver to two critically ill family members.

Sep 2015-
Jul 2017 **HENSEL PHELPS CONSTRUCTION CO.** **WASHINGTON, D.C.**
On-site Office Engineer at WMATA Bus Facility - 132 million USD design-build LEED silver project.

- Enabled efficient project execution across its life cycle through management of technical documentation, expediting deliveries and close coordination between key stakeholders.
- Delivered project within budget and avoided delays in cash-flows through verifying sub-contractor pay applications according to actual progress on-site.
- Mitigated and remediated on-site construction conflicts through advance BIM coordination meetings between the owner, architect-engineer and MEP subcontractors.
- Ensured timely execution of the project by coordinating project reporting and scheduling with the site superintendent.
- Managed subcontractor compliance for quality control and safety, through mobilizing and leading inspections with QC Manager.

Jun 2014-
Aug 2015 **TOTAL CIVIL CONST. & ENG. LLC** **WASHINGTON, D.C.**
Project Engineer for several new-build and renovation projects, each valued at 5-10 million USD.

- Ensured all projects are meeting their respective budgets and schedules by recording daily production and creating monthly cost-to-complete reports to analyze with upper management.
- Maximized construction productivity through frequent site-visits, review of daily reports and coordination with site personnel to eliminate inefficiency.
- Reduced project delays caused by unforeseen changes by preparing and processing change order requests and RFIs in a timely manner.
- Handled DC regulatory compliance by arranging all necessary construction permits through the entirety of the project.
