Small Business Growth Partners helps small businesses owners in construction and building trade industries develop highly profitable, quality business models without sacrificing their personal lives.

1. Assessment

A professional and "outsiders" view of your business – most builders don't have the luxury of having a "diagnostic" done on their businesses, nor have many had an unbiased analysis of how they are doing.

2. Advise

The ability to ask all business related questions from professionals that know your industry.

4. Planning

A time-based and action driven plan, broken down from a 3 year picture to the current quarter of the year your BPA is created.

5. Recommendations

Ideas and strategies for your sales process and system, marketing, internal processes, cash flow tracking and more.

3. Analysis

An analysis of your team and team acquisition system, including full DISC/Motivator assessments for key team members. The results of the assessments, including a team personality mapping grid, will also be included within your BPA.
