Experienced project manager driven to beat construction schedules while maintaining exceptional quality and job site safety. In today's industry companies need leaders who are willing to provide solutions and team work to stay within budget and deliver a project on time. Working for both general contractors and a subcontractor has provided me with the knowledge and the experience to adapt to the constantly changing construction industry and exceed expectations.

Skills

- ❖ Project Management / Project Planning
 - ❖ Operations Planning
 - ❖ Process Improvement
 - ❖ Quality Control
 - ❖ Cost Analysis and Forecasting
 - ❖ Process Mapping
 - ❖ Analyzing Drawings
 - ❖ Scheduling
 - ❖ Microsoft Suite
 - ❖ AutoCAD / Planswift / Bluebeam / CMIC
-

WORK EXPERIENCE

Archer Western Construction – Assistant Project Manager – October 2023-Present

- ❖ Team lead for managing, developing and implementing all aspects of the roadway scope of work on the project and working in conjunction with the bridge construction
- ❖ Responsible for the dirt work, underground utilities, drainage structures, concrete curb/gutter and flatwork, subbase, asphalt paving, striping, signage
- ❖ Responsible for managing cost report, subcontractors, submittals, RFI's and correspondence with owner, architect and engineer for all items concerning the roadway construction
- ❖ Critical thinking to develop alternative strategies to expedite operations through the construction process

Fossett Paving Company – Project Manager – January 2017 – October 2023

- ❖ Estimating for all aspects of paving in the commercial market (warehouses, subdivisions, schools, retail etc.) including base material, asphalt and striping
- ❖ Coordination with multiple general contractors and owners to provide quality work under budget and on time
- ❖ Manage quality assurance/quality control
- ❖ Manage multiple projects simultaneously to meet customer deadlines
- ❖ Team lead for all striping operations. Acquired the business in 2018 and ran operations for year to learn the ins and outs. I then managed the schedule, material supply, equipment maintenance and business development

Whiting-Turner Contracting Company – Field Engineer – June 2016 – December 2016

- ❖ Worked with project management team and subcontractors as an assistant superintendent to build five story, two tower building connected by a steel atrium conforming to specifications and safety standards per Whiting-Turner and OSHA standards
- ❖ Performed quality control of the building to conform with drawings and specifications
- ❖ Scheduled inspections for the subcontractors
- ❖ Documented daily work performed by all the subcontractors

A2H Engineers, Architects, Planners – Survey Crew Internship – May 2015 – August 2015

- ❖ Aided in surveying various job sites to create As-Built, A.L.T.A, topographic and boundary surveys
- ❖ Worked on AutoCAD drawings of data collected from surveying in the field

Precision Engineering Corporation – Engineering Technician Internship – May 2014 – August 2014

- ❖ Aided in quality control, lab tests, and slump and air tests for various concrete and dirt samples

RCH Electric – Electrician Assistant Internship – May 2013 – August 2013

- ❖ Assisted the electrician with electric rough ins and trim outs in residential construction

PROJECTS

- ❖ I-285 Westbound Auxiliary Lane Extension
- ❖ UTC Center for Intelligent Buildings
- ❖ Commercial Asphalt Paving Projects (200-300 per year)

EDUCATION

University of Mississippi. BSCE, Civil Engineering – Graduated Magna Cum Laude; GPA – 3.79
